## Who we are

- Pearl Beach is a small coastal village situated approximately 40km due north of the Sydney CBD (92km by road), but separated from the city by Broken Bay and the Hawkesbury River.
- The Pearl Beach Arboretum (officially known as the Crommelin Native Arboretum) is 5.5 hectares of natural bushland in the south western corner of Pearl Beach. It is managed by a committee of local volunteers and has a magnificent open area that has been the setting for many concerts.
- The Pearl Beach Progress Association was formed in 1929 by some of the original residents of Pearl Beach who began meeting to improve services to the Village. In 1948 they began building the Memorial Hall. This Hall is one of the few community halls owned by a resident community. The PBPA aims to promote the best interest of the residents of Pearl Beach including supporting local activities and events, protecting the local environment and maintaining the Association's Memorial Hall.
