The Pearl Beach Environment Group (PBEG) was established in 2021. It is a not for profit Incorporated organisation whose objective is to “*protect and enhance the environment and encourage nature conservation within the village of Pearl Beach*”.

The Gosford Development Control Plan (DCP) 2013 acknowledges the environmental qualities of Pearl Beach:

Pearl Beach has a special character. It has widely recognised scenic beauty: the beach itself, the headlands, the view of Broken Bay, the surrounding hills of Brisbane Water National Park.

The distinctive asset of Pearl Beach is its natural environment. Within the village is an abundance of trees and shrubs - in the reserves, in the streets and on the private properties, and softening the visual impact of structures on the natural environment. It also has a profusion of bird life within the village. The overall effect is one of natural beauty.

The tree canopy is the intrinsic unifying feature of the area and it is critical that it be maintained.¹

PBEG seeks to:

- Assist the Pearl Beach community in understanding and protecting the special environment of Pearl Beach through communications, publications and activities;
- Assist the community to protect the special environment of Pearl Beach through submissions to policy makers and consent authorities, especially Central Coast Council;
- Work closely with residents and stakeholders to achieve our objectives, including Central Coast Council, Pearl Beach Progress Association, Crommelin Arboretum, Bushcare, Dunecare and the Pearl Beach Aboriginal History Group.

PBEG seeks your support in pursuing these objectives. Please consider becoming a member of PBEG – the application details are overleaf.

¹ Section 5.10 of the DCP was put together following extensive consultation with the community of Pearl Beach. The Pearl Beach community raised money to fund the Pearl Beach Management Plan in 1989, which informed the DCP.

The objective of the Pearl Beach Environment Group (PBEG) is to “*protect and enhance the environment and encourage nature conservation within the village of Pearl Beach*”. PBEG defines ‘*environment*’ as both the built and the natural environment, as well as the special ‘*setting*’ of Pearl Beach, so valued by both our residents and our visitors.

PBEG MEMBERSHIP APPLICATION FORM 2021

Membership applications are open for the 2021-2022 financial year. The costs are:
\$5 joining fee and \$10 per financial year.
